Mr. Nicholas Ceto, Project Manager
Office of Environmental Cleanup
Hanford Project Office
U.S. Environmental Protection Agency
712 Swift Boulevard, Suite 5
Richland, Washington 99352

Dear Mr. Ceto:

TRANSMITTAL OF DOE/RL-2001-47, REV. 1, DRAFT B, REMEDIAL DESIGN
REPORT/REMEDIAL ACTION WORK PLAN FOR THE 300 AREA AND DOE/RL-2001-48,
REV. 1, DRAFT B, 300 AREA REMEDIAL ACTION SAMPLING AND ANALYSIS PLAN

The subject documents were revised based on resolving comments submitted by the U.S. Environmental Protection Agency (EPA). Please find attached Draft B documents in red-line format for your final review.

One significant revision to the subject documents is the addition of unrestricted use cleanup values for eight waste sites located in the 300-FF-2 Operable Unit. Approval of these new cleanup values shall be authorized upon approval of the pending Explanation of Significant Difference (ESD) for the 300-FF-2 Operable Unit Record of Decision. Therefore, issuance of Revision 1 of these subject documents will only occur after the ESD is approved and issued. Revisions to the documents, including the ESD, have been discussed with Mike Goldstein, of your staff.

Mr. Nicholas Ceto
